

New Source Review newspaper advertisements for construction permit applications, July 26, 2007. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: July 24, July 25, or July 26, 2007. Public notices are generally published every two weeks. The previous publication of public notices was July 12, 2007.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is H&E Block and Supply, LLC with a mailing address of P.O. Box 1380, LaFollette, TN 37766. This company seeks to obtain an air contaminant permit (Division identification number: 07-0140-01/60999) for a concrete batch plant located at 230 First Street, LaFollette, TN 37766. This operation consists of a cement silo, conveyors, and a mixing hopper. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Doug Warden is the assigned Division person.

For the Campbell County *LaFollette Press* -- published once on or before Thursday, July 26, 2007.

---

#### FIRST APPLICANT:

The applicant is Vulcan Construction Materials, L. P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 13-0006-03/60982) for construction of a Portable Screening Unit at Cedar Fork Road, Tazewell, TN 37764. This proposed operation would consist of a portable screening unit used for a rock crushing operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

#### SECOND APPLICANT:

The applicant is DTR Tennessee, Inc. Tazewell with a mailing address of 150 Hester Lane, Tazewell, TN 37879. They seek to obtain an air contaminant permit (Division identification number: 13-0083-34/61054) for construction of a Water-based Coating Operation at 150 Hester Lane, Tazewell, Tennessee. This proposed operation would consist of a water-based paint coating application via a hand spraying system with a forced-air steam-drying chamber. Fabric filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Claiborne County *Claiborne Progress* -- published once on or before Thursday, July 26, 2007.

---

FIRST APPLICANT:

The applicant is Gilbert Hardwood Centers, Inc. with a mailing address of P.O. Box 130, Huntland, TN 37345. They seek to obtain an air contaminant permit (Division identification number: 26-0085-02/60713) for a Woodworking Operation located at 100 Harless Drive, Huntland, TN 37345. This existing operation consists of saws, planer, wood grinder, and other equipment used to produce hard wood lumber. Cyclones are used for pollution control. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

SECOND APPLICANT:

The applicant is Hamilton Kent LLC with a mailing address of 740 Baxter Lane, Winchester, TN 37398. They seek to obtain an air contaminant permit (Division identification number 26-0109-01/61021) for a Rubber Extrusion Processing Operation located at the same address. This proposed operation consists of rubber extrusion equipment and microwave. A wet electrostatic precipitator would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Ahmed is the assigned Division person.

For the Franklin County *Herald-Chronicle* -- published once on or before Thursday, July 26, 2007.

---

The applicant is Dura Automotive Systems, Inc. with a mailing address of 5210 Industrial Drive, Milan, TN 38358. They seek to obtain an air contaminant permit (Division identification number: 27-0187-01/61085) for construction of a Wire Coating Operation located at the same address. This proposed operation would consist of wire winding machines and associated equipment used in the coating process. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Gibson County *Milan Mirror-Exchange* -- published once on or before Thursday, July 26, 2007.

---

FIRST APPLICANT:

The applicant is Volunteer Fabricators with a mailing address of P.O. Box 398, Bean Station, TN 37708. They seek to obtain air contaminant permits for air contaminant sources located at 985 Highway 11W, Bean Station, TN 37708, as follows:

(1) Woodworking Operation (Division identification number: 29-0044-01/60803). This existing operation consists of sawing, routing, shaping, planning, sanding, ripping and trimming etc. A cyclone/ baghouse combination is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. S. Shajikumar is the assigned Division person.

(2) Woodworking Operation (Division identification number: 29-0044-02/60804). This existing operation consists of routing wood operations, wood/hog grinder for waste wood. A cyclone/ baghouse combination is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. S. Shajikumar is the assigned Division person.

SECOND APPLICANT:

The applicant is General Electric Company with a mailing address of 5320 East Morris Boulevard, Morristown, TN 37814. They seek to obtain an air contaminant permit (Division identification number: 32-0114-14/60191) for construction of a Blasting Operation at 5320 East Morris Boulevard, Morristown, TN 37814. This proposed operation would consist of a blast cabinet that will be used to conduct abrasive blasting of load distribution cabinets fabricated at the facility prior to surface coating and dust collector. A fabric filter would be used for

pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Malcolm Butler is the assigned Division person.

THIRD APPLICANT:

The applicant is Pioneer Plastic Corporation with a mailing address of 325 Desoto Avenue, Morristown, TN 37813. They seek to obtain an air contaminant permit (Division identification number: 32-0096-13/60990) for construction of an Underground Storage Tank located at the same address. This proposed operation would consist of an underground styrene storage tank. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

FOURTH APPLICANT:

The applicant is Berkline, LLC with a mailing address of One Berkline Drive, Morristown, TN 37813. They seek to obtain an air contaminant permit (Division identification number: 32-0032-02/61057 and 32-0032-04/61058) for construction of Boilers and a Woodworking Operation located at the same address. These operations consist of two wood fired steam-generating boilers and one natural gas boiler, and woodworking equipment. There would be no physical construction. Because of the amount and type of pollutants, the use of pollution control equipment is not proposed. Regulated air contaminants would be emitted by this source. Mr. Malcolm Butler is the assigned Division person.

For the Hamblen County *Citizen Tribune* -- published once on or before Thursday, July 26, 2007.

---

The applicant is United DMS of Tennessee, LLC with a mailing address of 3006 Industrial Parkway East, Knoxville, TN 37921. They seek to obtain an air contaminant permit (Division identification number: 45-0082-03/61082) for construction of a Rotary Calciner at 950 Pine Drive, Dandridge, TN 37725. This proposed operation would consist of a rotary calciner and associated equipment used for drying sludge. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jabari Martin is the assigned Division person.

For the Jefferson County *Standard-Banner* --published once on or before Thursday, July 26, 2007.

---

The applicant is American Bank Note Company with a mailing address of 711 Armstrong Lane, Columbia, TN 38401. They seek to obtain an air contaminant permit (Division identification numbers: 60-0205-01/60958, 60-0205-02/60959, and 60-0205-03/60960) for construction of a Non-heatset lithographic and Screen printing operation and an Ink Jet Card Personalization line at 7025 Industrial Park Road, Mount Pleasant, TN 38474. This proposed construction would consist of a Non-heatset lithographic and Screen printing equipment and an Ink Jet Card Personalization equipment. Because of the amount and type of pollutants, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Swinea is the assigned Division person.

For the Maury County "*Daily Herald*"-- published once on or before Thursday, July 26, 2007.

---

The applicant is Ershigs, Inc. with a mailing address of P.O. Box 1707, Bellingham WA 98227-1707. They seek to obtain an air contaminant permit (Division identification number: 73-0181/60785) for construction of a Stack Liner at 714 Swan Pond Road, Harriman, TN, 37748. This proposed operation consists of on-site manufacture of a new fiberglass reinforced plastic composite stack liner for TVA Kingston Power Plant. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Malcolm Butler is the assigned Division person.

The applicant is Charles Blalock and Sons, Inc. with a mailing address of P.O. Box 4750, Sevierville, TN 37864. They seek to obtain air contaminant permits for construction of air contaminant sources at 624 Sugar Hollow Road, Pigeon Forge, TN 37863, as follows:

(1) Portable Rock Crushing Operation (Division identification number: 78-0201-02/61029). This proposed operation would consist of crushing and conveying equipment used to produce crushed stone. The crusher would be powered by an internal combustion engine, which would be fueled by number 2 oil. Wet suppression would be used for control of particulate emissions, and the source would be required to use Best Available Control Technology (BACT) to reduce emissions of nitrogen oxides and volatile organic compounds. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Olga Jacobsen is the assigned Division person.

(2) Portable Rock Crushing Operation (Division identification number: 78-0201-03/61031). This proposed operation would consist of crushing, screening, and conveying operations used to produce crushed stone from recycled concrete and rock debris. The crusher would be powered by two internal combustion engines, which would be fueled by number 2 oil. Wet suppression would be used for control of particulate emissions, and the source would be required to use Best Available Control Technology (BACT) to reduce emissions of nitrogen oxides and volatile organic compounds. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Olga Jacobsen is the assigned Division person.

For the Sevier County *Mountain Press*-- published once on or before Thursday, July 26, 2007.

---

The applicant is World Wide Line with a mailing address of 128 Industrial Road, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 84-0086-05/60671) for construction of a Screen Making and Cleaning Operation at 128 Industrial Road, Covington, TN 38019. This proposed operation would consist of decal or direct printing and screen cleaning/reclamation for reuse. There would be physical construction. Regulated air contaminants would be emitted by this source. Because of the amount and type of pollutants, the use of air pollution control equipment is not proposed. Mr. Abbas Yavari is the assigned Division person.

For the Tipton County *Covington Leader* -- published once on or before Thursday, July 26, 2007.

---

The applicant is Wastaway Services, LLC with a mailing address of 193 Mt. View Industrial Blvd., Morrison, TN 37357. They seek to obtain an air contaminant permit (Division identification number: 89-0110-02/61088) for modification of a Steam Generating Operation located at the same address. This existing operation consists of a boiler, gasifier, and associated equipment used to generate steam. The requested modification is to change the fuel to wood only. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Warren County *Southern Standard* -- published once on or before Thursday, July 26, 2007.
